

# IWS WATER TREATMENT SOLUTIONS

## IWS WATER TREATMENT SOLUTIONS

Choosing a water purifier is an investment in your health and well-being. Choose a reliable purifier that is easy to install and maintain.

With Water System you get  
pure and uncontaminated spring water.

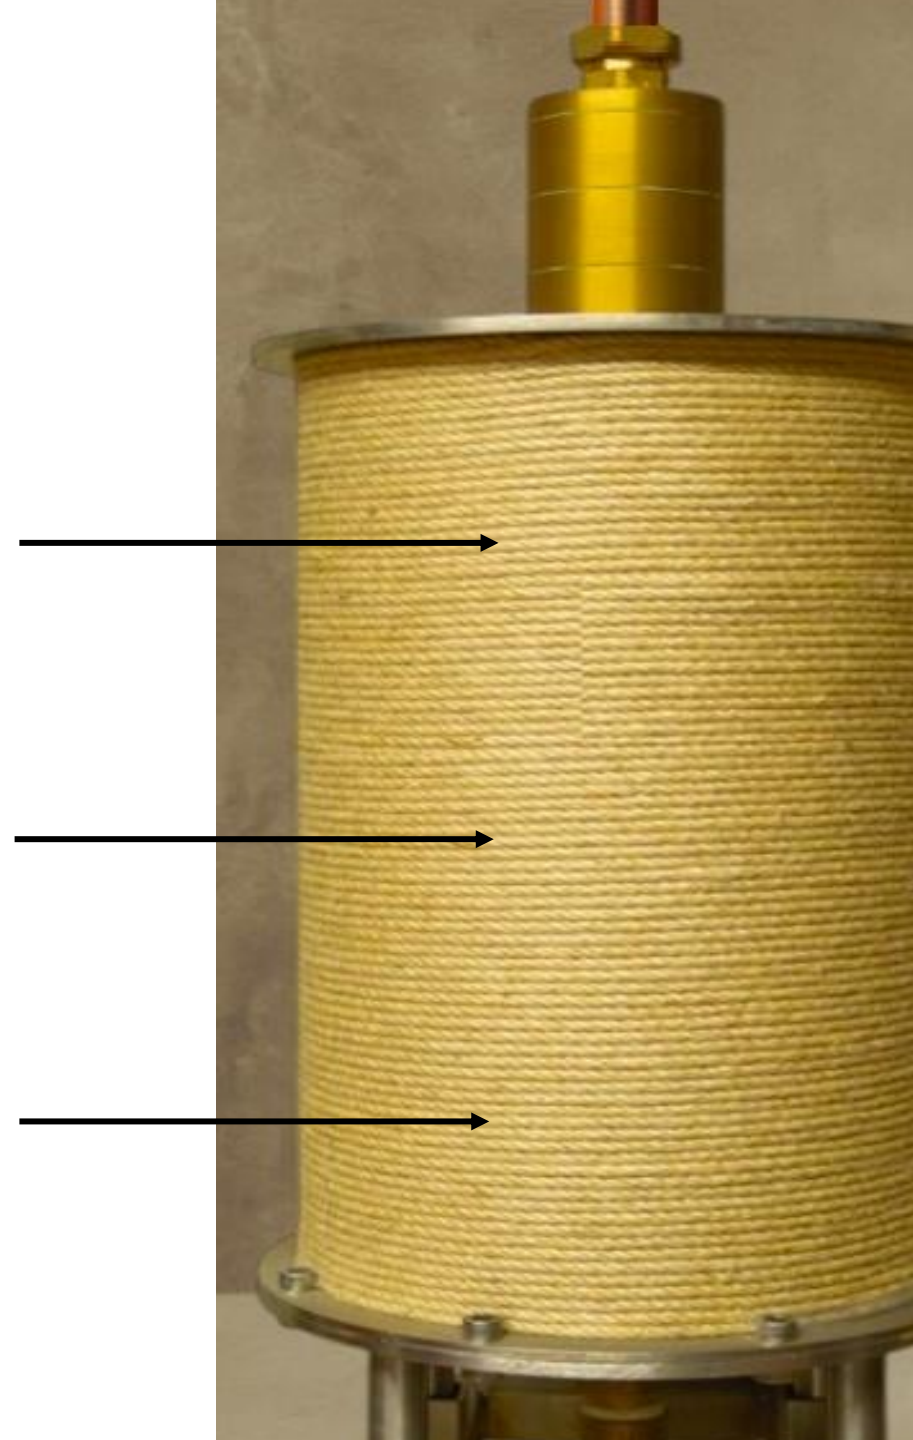

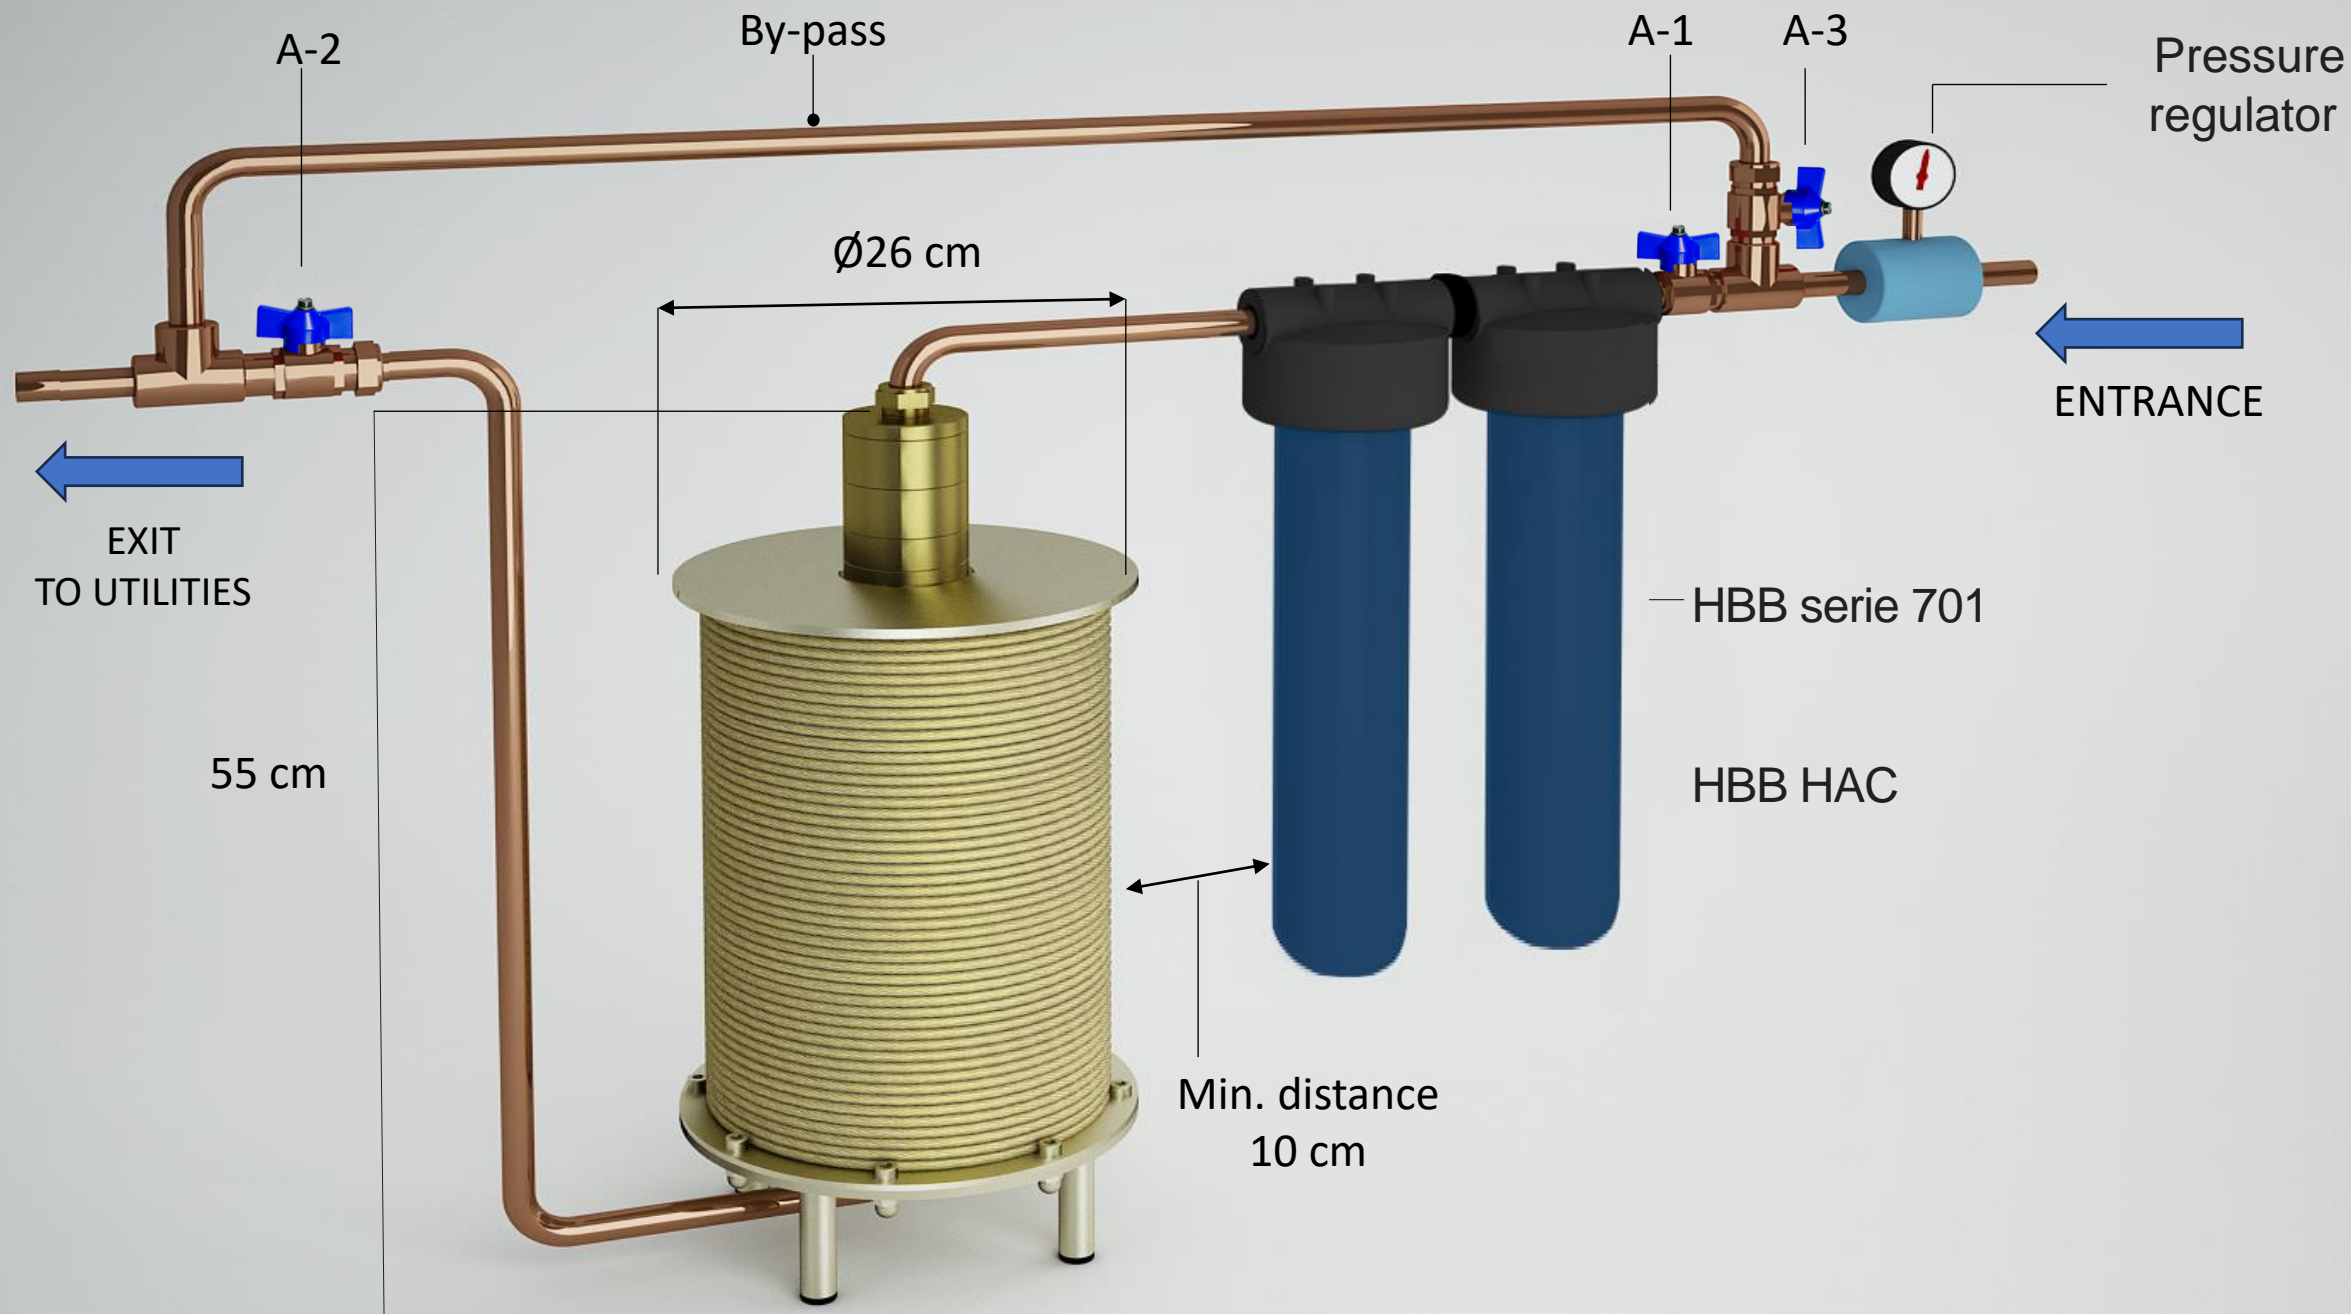

## IWS AND ITS FUNCTIONS:

- In the first section it transforms calcium carbonate into aragonite eliminating encrustations and also prevents the formation of kidney stones.

- In the second section it erases from the mains water the memories acquired during the long flow in the crossing terrains and restores the original memory of the water.

- In the third section the mains water is brought to a higher energy level than that of normally filtered water.

**IWS DESIGNED TO LAST  
IT IS GUARANTEED FOR LIFE**
